

## Change "HEIC" to "JPG" File Type

The DECAL QR Payments system can only process JPG and PDF document types with your application. This document will guide you through how to change an "HEIC" file type (the iPhone image default) to a "JPG."

To begin, go to the Photo Gallery app on your iPhone.

2 Navigate to the photo you wish to upload with your DECAL QR Payments application.

3

Select the share icon at the bottom right of the photo viewer window.

4 Select the "Copy Photo" option at the bottom left.

5 Navigate back to your home screen and now go to the Files app on your iPhone.

6 Tap and hold any part of the blank space on your file viewer and a menu will appear. Select "Paste."
